K Auto Tech LLC

Dealership Dashboards, Analytics & Software

CAPABILITY STATEMENT

kautotech.com

COMPANY OVERVIEW

K Auto Tech LLC is a technical consulting and software development firm working with dealerships and dealer groups. We build performance dashboards, DMS and CRM data integration, and custom software that turn what a store already records into numbers its managers can act on. Every figure is reconciled to the financial statement, and every line carries a written definition and the benchmark it is measured against.

CORE COMPETENCIES

- Dealership & Dealer Group Performance Dashboards
- DMS / CRM Integration & Data Warehousing
- F&I Analytics (Penetration, Per-Copy Gross, Reinsurance)
- Fixed Operations & Parts Analytics (Absorption, ELR)
- Used Vehicle, Landed Cost & Reconditioning Reporting
- Workflow & Document Automation with E-Signature
- Acquisition Diligence & Quality of Earnings Tooling
- Custom Software Development for Automotive Retail

DIFFERENTIATORS

Reconciled Before Published

Every figure ties to the financial statement first. A dashboard that does not reconcile is a demo.

Definitions First

One written definition and one benchmark per metric, agreed before anything is built.

End-to-End Delivery

Same team from assessment through deployment. No handoffs to third-party implementers.

Built, Not Resold

A development firm rather than a dealer software vendor. No product to make your operation fit.

NAICS CODES

541511	Custom Computer Programming Services
541512	Computer Systems Design Services
541519	Other Computer Related Services
541611	Admin & General Management Consulting
